○ **Abhishek-Saini-01**

As a web developer, I possess extensive experience in designing and developing responsive, user-friendly, and visually appealing websites. My expertise includes proficiency in HTML, CSS, JavaScript, and various front-end frameworks such as React and NextJS. I am well-versed in back-end technologies such as Node.js, Express, and MongoDB. I have a keen eye for detail, and I am committed to delivering high-quality, error-free code. With my excellent problem-solving skills and a passion for innovation, I am dedicated to creating web applications that meet or exceed expectations.

Education

Swami Keshvanand Institute of Technology, Management & Gramothan

B.Tech, Computer Science and Engineering

(November 01, 2021 - May 01, 2025)

Projects

Developed a personal portfolio website using Next.js and Tailwind CSS, showcasing my design and development skills and projects.

Personal Portfolio

- Tools used - NextJS and Tailwind CSS.
- The website features various sections, including an about me section, a project gallery, and was built with a mobile-first approach.

`NextJS` `TailwindCSS`

Developed an add to cart web application using HTML, CSS, JavaScript, and Firebase to manage a shopping list.

Add to Cart

- Tools I utilized HTML, CSS, JavaScript, and Firebase.
- I designed and implemented a user-friendly interface to add, view, and remove items from the shopping list.

⊙ **https://add-shopping-list.netlify.app/**

`HTML` `CSS` `Javascript` `Firebase`

Developed an Bank landing page using ReactJS, Tailwind CSS, and JavaScript.

Bank Website

- Tools I utilized ReactJS, Tailwind CSS, and JavaScript.
- I designed and implemented a user-friendly interface in React's component- based architecture like features , products and clients.

`ReactJS` `Tailwind CSS` `Javascript`

ReactJS and ThreeJS-based iPhone Landing Website

iPhone website

- Tools I utilized ReactJS , ThreeJS, and Javascript.
- Created an engaging user experience by integrating dynamic animations and smooth transitions. Utilized React's component-based architecture to efficiently manage the website's content and structure.
